📍 Bhavnagar, Gujarat, India 🔗 Portfolio

Profile

Results-driven Flutter developer with a proven track record of developing and deploying mobile applications. Proficient in full-stack development with expertise in Flutter, PHP, HTML, CSS, Java, JavaScript, SQL, ASP.NET ⌂ , and VB.NET ⌂ . Holds a Bachelor's degree in Computer Applications (BCA) and currently pursuing a Master's in Computer Applications (MCA) with a specialization in AI & Data Science. Adept at building scalable and efficient applications, with a keen interest in innovation and problem-solving. Actively seeking a part-time opportunity to contribute technical expertise while gaining industry experience.

Professional Experience

Flutter Developer   08/2024 – 11/2024
World4business ⌂   Bhavnagar, India

- I have worked in **World4business** as **Flutter Developer** for **4 months** after completion of BCA and left due to lack of time as I am currently studying MCA.

Education

MCA Artificial Intelligence and Data Science   2024 – present
Gyanmanjari Innovative University (GMIU) ⌂   Bhavnagar, India

- Currently pursuing a **Master of Computer Applications (MCA)** with a specialization in **AI & Data Science** at GMIU, focusing on machine learning, data analytics, and advanced computing. Developing expertise in AI-driven solutions, big data processing, and cloud technologies through academic research and hands-on projects.

Bachelor of Computer Applications   2021 – 2024
Shree Swaminarayan College of Computer Science (SSCCS) ⌂   Bhavnagar, India

- Completed **Bachelor of Computer Applications (BCA)** from SSCCS, gaining a strong foundation in software development, database management, and web technologies. Acquired expertise in programming languages, application development, and system analysis.
- Developed a solid understanding of software engineering principles, problem-solving techniques, and emerging technologies through practical projects and academic coursework.

Projects

ProRider
Travel app
- Developed a feature-rich ride-sharing mobile application using **Flutter and Dart**, enabling users to post and book rides seamlessly.
- The app allows users to add trips by specifying **departure location, destination, date, and ride preferences**, making it easier for others to find and join available rides.
- Integrated **real-time chat functionality** using **WebSockets** to facilitate instant communication between ride participants.

Day Maker
Event Management application
- Designed and developed **Day Maker**, an event management application using **Flutter and Dart**, allowing seamless event organization and booking.
- The app enables **admins to create and manage events**, while users can explore available events and request bookings by providing essential details.
- Admins have full control over **approving or rejecting booking requests**, ensuring efficient event coordination.

Additional Projects
- **E-Commerce App:** Developed a fully functional online shopping application similar to Amazon and Flipkart using **Flutter and Dart**. Implemented **product listing, cart management, secure checkout, order tracking, and payment integration** for a seamless shopping experience.
- **Notes App:** Designed a user-friendly **note-taking application** with features like **creating, editing, deleting, and organizing notes**. Integrated **local storage and cloud sync** for accessibility across multiple devices.
- **Other Projects:** Worked on various Flutter-based applications, including **task management, real-time chat, and personal finance tracking apps**, showcasing expertise in **UI/UX design, API integration, and state management**. You can check other projects on my **Portfolio** 🔗

Courses

MERN Stack Developer
Weltec Institute

07/2024 – present
Ahmedabad, India

- Currently enrolled in a **MERN Stack Development course** at **Weltec Institute**, focusing on **MongoDB, Express.js, React.js, and Node.js** to build dynamic and scalable web applications.

Flutter development
The Easy Learn Academy

09/2023 – 02/2024
Bhavnagar, India

- Completed a comprehensive **Flutter development course** at **The Easy Learn Academy**, gaining hands-on experience in building cross-platform mobile applications, API integration, state management, and real-time data handling.

Skills

Flutter	HTML5
Dart	Git
Firebase	Web development
AI & Data Science Concepts	REST APIs
API Integration	Database Management
React.js	Node.js
Javascript	MongoDB

Certificates

Flutter developer certificate 🔗

Strenghts

Problem-Solving & Debugging
- Skilled in identifying, analyzing, and resolving complex issues to ensure smooth application functionality.

UI/UX Design Understanding
- Strong grasp of user-centric design principles to create intuitive and visually appealing applications.

Project Management & Agile Development
- Experienced in managing development cycles using Agile methodologies for efficient project execution.

Effective Communication
- Capable of conveying technical concepts clearly and collaborating seamlessly with teams and stakeholders.

Interests & Learning

AI & Data Science
- Passionate about AI and Data Science, with a keen interest in machine learning, data analytics, and intelligent system development.
- Eager to apply data-driven solutions to real-world problems and explore innovative AI applications.
